Recycled Content

We offer a number of products with recycled content, mainly in 100% polyester constructions. By using yarns produced from either post consumer or post industrial waste, we avoid the need to manufacture from virgin materials, saving both energy and reducing waste.

These products in the upholstery and panel fabric area are indistinguishable in appearance from for this new development. The positive list of environmentally sound chemicals and 16 dye chemicals from Ciba developed with EPEA remain intact this new development. The choices for colors and designs are unlimited, except for pure black.

Carnegie offers a wide selection of upholstery and panel fabrics manufactured from recycled polyester.
